ACKNOWLEDGEMENT

The first, we would like to express my special thanks of gratitude to my teacher Sir Najam Moin , who helped us a lot in finalizing this project within the limited time frame, valuable counselling and assistance for the accomplishment of this project.

Secondly we would also like to thank the eProject team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about PETBOT.

Thirdly, we also thank the eProject team, some of the benefits are as under:

- Re-enforcement of skills happens in the experiential learning process.
- A mentor, ensuring that we do not get drifted, constantly guides us.
- It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learnt.

SYNOPSIS

Polyethylene terephthalate (PET) has become the most favourable packaging material world-wide for beverages. The reason for this development is the excellent material properties of the PET material, especially its unbreakability and the very low weight of the bottles compared to glass bottles of the same filling volume. Nowadays, PET bottles are used for gym, mineral water, milk, ice teas as well as for more sensitive beverages and juices.

CUSTOMER REQUIREMENT

SATISFACTION (CRS)

After discussion, we are supposed to create a website for them with the below mentioned requirement specifications:

- The Home Page should have suitable logo, and decent colour combination.
- The site should display a menu which will contain the options bottle category.
- Various pages having information about different types of bottles.
- The information should be categorized according to different Product Line-up e.g. "Water bottle", "Milk bottle" etc.
- When a user selects any product line-up, complete list of bottles for that product line-up will be displayed.
- Details of the bottles should be displayed on the Web Page along with the title and it should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
- Price List for all bottles should be available for download.
- There should be a "Contact Us" page which will have the Address of the Stores selling bottles and the mail address which when clicked will invoke the local mail client from where they can send an email.

SCOPE OF THE WORK (IN BRIEF)

The website is to be developed for the Windows Platform using HTML5, JavaScript. The site should work well in all leading browsers including Chrome, IE, Firefox etc..

Homepage show Top best sell items, big sale, collection, new shop...

Every content direct to relative content.
